2020 EDITION | MAY

Malls

Greetings from WCT Malls Management!

The Covid-19 pandemic has changed the way we live, work or interact with one another. We must now adapt to the 'new normal' in how businesses work and how we perform our basic daily functions to cope with the changed environment. The faster we can react to the changes, the greater our chance in overcoming this situation.

Our stakeholders, comprising employees, tenants and shoppers remain the utmost priority to us. Hence, we, at WCT Malls strive to ensure that the necessary measures are put into practice to mitigate the impact of the situation. From the ground team, bravely known as our frontliners who keep the shopping malls partially opened to provide essential needs to Malaysians, to the teams who work from home while managing retailers and shoppers enquiries amid the Movement Control Order ("MCO").

During the MCO, WCT Malls has stepped up its efforts such as introduced a hotline for respective malls to respond to shoppers and tenants enquiries, implemented body temperature screening for all patrons at all accessible entrances, perpetuated high standards of hygiene by increasing cleaning and disinfecting the malls' surrounding as well as provided constant updates on our social media pages regarding our tenants' offerings and promotions. The key was to ensure efficiency and effectiveness in all aspects of our operations while enhancing our services during this unprecedented situation.

Please eat well, rest well and exercise well. It is prudent that we take care of ourselves and be considerate to those around us. We will need to live as normally as possible and keep our spirits high through reasonable and responsible actions.

We are a team and let's fight on together!
